Bill Section	Stat. Sec. Amended	Section Description
1	142B.01, subd. 15	To be deleted by amendment.
2	142B.10, subd. 18	Clarifies that a nonprofit LLC under chapter 322C may be licensed to place children for adoption. This section simply reflects that nonprofits also organize as LLCs. This does not substantively change the work of nonprofit adoption agencies.
3	245C.04, subd. 1	Eliminates the requirement that background study be conducted for an LNL provider at reauthorization. This corrects a drafting error from prior legislation that failed to include LNLs in this update for all providers. This change aligns with what was implemented and with federal law.
4	259.83, subd. 1	Corrects statutory cross-reference. Section 144.2253 governs birth parent contact preference forms, not access to birth records by adopted persons. (Recodification clean-up.)
5	260.67, subd. 1	Corrects statutory cross-reference. Northstar Care for Children was renumbered as part of establishing DCYF as a separate state agency. (Recodification clean-up.)
6	260C.190, subd. 1	Technical fix to align with federal FFPSA to allow foster care payments to be made to licensed substance abuse treatment facilities when a child in foster care is co-located with their parent. (Recodification clean-up.)
7	260C.212, subd. 4a	Allows option for virtual visits between foster care case managers and youth ages 18 and older in extended foster care, with a youth's informed consent, consistent with recent federal Title IV-B law changes. This ensuresthat youth in extended foster care can move to a new community, while still maintaining their case manager visits, and caseworkers at local social services agencies are not required to travel to the youth's location in another county or state. **Allowing this practice is a federal requirement.**
