BILL SUMMARY

S.F. No. 3902 – REQUIRING AMBULANCE SERVICES TO REPORT CERTAIN PREHOSPITAL CARE DATA

Author: Senator Judy Seeberger

Prepared by: Erica Heikel, Senate Counsel (erica.heikel@mnsenate.gov)

Date: March 16, 2026

Section 1 (amends Minn. Stat. § 144E.123, subdivision 1) This section adds that certain prehospital care data, as specified in Section 2 of S.F. No. 3902, must be included in data that an ambulance service licensee must collect and provide to the director of the Office of Emergency Medical Services (OEMS).

Section 2 (adds Minn. Stat. § 144E.123, subdivision 6) This section adds that an ambulance service licensee must collect certain prehospital care data for all emergency responses provided by the licensee within the boundaries of each municipality in the licensee's primary service area. The collected data must be reported to the director of OEMS, who must then make the data publicly available annually. Licensees must collect and report on their total number of emergency ambulance calls, certain specific data related to each emergency ambulance call, percent transport disposition, and mutual aid given and received, disaggregated by municipality.
