BILL SUMMARY

S.F. No. 3928 – CFSS REQUIREMENTS FOR SHARED SERVICES CLARIFICATION

Author: Senator Zaynab Mohamed

Prepared by: Liam Monahan, Legislative Analyst (liam.monahan@mnsenate.gov)

Date: March 18, 2026

SF 3928 clarifies the requirements for the provision of shared services under community first services and supports (CFSS) and establishes requirements regarding a passthrough to support workers of an unspecified proportion of the marginal increase of a CFSS provider's reimbursement rate when a single support worker provides services to two or three participants at the same time.

Section 1 makes technical and clarifying changes to the personal care assistance (PCA) statute.

Section 2 makes technical and clarifying changes to the PCA statute.

Section 3 amends the PCA statute by:

- defining "additional revenue for shared services" and "wages and wage-related costs" for the purposes of determining the proportion of the marginal increase of a PCA provider's reimbursement rate that must be passed through to a PCA when a single PCA provides shared services;
- requiring a PCA provider to use an unspecifying proportion of the provider's additional revenue for shared services for wages and wage-related costs; and
- specifying prohibited uses of this proportion of additional revenue.

Section 4 makes technical and clarifying changes to the PCA statute.

Section 5 amends the community first services and supports statute by making conforming changes related to the incorporation of the existing shared services provisions of the PCA program and clarifying that shared services are included in CFSS.

Section 6 amends the CFSS statute governing the CFSS agency-provider model by adding shared services language modeled on the current law language in the PCA statute found at 256B.0659, subdivision 16.

Section 7 amends the CFSS statute by adding shared services rates modeled on the current law language in the PCA statute found at 256B.0659, subdivision 17.

Section 8 amends the CFSS statute governing the CFSS agency-provider model by:

- requiring a CFSS agency provider to use an unspecifying proportion of the provider's additional revenue for shared services for wages and wage-related costs; and
- specifying prohibited uses of this proportion.

Section 9 amends the CFSS statute governing the CFSS budget model by adding shared services language modeled on the current law language in the consumer-directed community support (CDCS) services statute found at 256B.4911, subdivision 7.

Section 10 amends the CFSS statute governing the CFSS budget model by:

- requiring a CFSS participant employer to use for wages and wage-related costs an unspecifying proportion of the participant employer's budget savings resulting from utilizing shared services; and
- specifying prohibited uses of this proportion.

Section 11 adds a new section of CFSS statutes adding definitions for "additional revenue for shared services," "budget savings for shared services," and "wage and wage-related costs."

Section 12 is a Revisor instruction to move the CFSS definitions from 256B.85 and 256B.851 to the new statutory section contains CFSS definitions.
